CONSTRUCTION STARTS on large addition to Boyden School, South Walpole. This picture was taken in November.

The Year in Review

The Town's biggest project for 1962 was the construction of the \$417,000 addition to the Boyden School in South Walpole. Approved at the Town Meeting of April 2, construction was started on October 25 by the Rocheford Construction Company of Natick, and was well along by the end of the year. The new wing includes nine additional classrooms, a cafetorium and office facilities. Target date for opening this wing is November 1, 1963.

Need for even more classroom space was emphasized when schools opened in September with the largest registration in the history of the town—3779 students. There were 449 first grade pupils. In June, 153

BRANDS now occupies this new building in the Edgewood Shopping Center, opposite the A & P.

seniors graduated from Walpole High School. These two figures illustrate the tremendous growth in the school population in the past twelve years.

The business center of the Town also reflects continued growth, with a number of merchants moving to larger quarters. Campbell's dress shop moved into the new building constructed at the corner of Main and East Streets. The County Office Supply Company, Inc. expanded into the quarters vacated by Campbell's. A number of other stores also opened during the year along Main Street.

At the Edgewood Shopping Center, the Dedham Trust Company moved to its new and larger building on the site formerly occupied by

TOWN FOREST PROJECT. Inmates from the Norfolk County Jail and House of Correction at Dedham were used to help clear land in a new area of the Town Forest, off South Street between Washington Street and Route 1. Discussing the project are: William Russell, correction officer in charge; James Walsh, foreman of the Walpole Park crew, and Deputy Master John Chmielinski of the Dedham institution.

Cliff's Laundry. Brands, Inc., Men's Shop moved to its new quarters adjacent to the Dedham Trust, and J. & A. Cleaners opened a coin-operated dry cleaning establishment. Earlier in the year, Cliff's had moved to a new location at Walpole Plaza and in October opened a coin-operated dry cleaning center. Another store which opened in 1962 at the Walpole Plaza was Ronnie's.

In East Walpole, soon after the Park Theater closed, the building was renovated and reopened in June as a wholesale bakery, Peggy Lawton's Kitchens. Also during the year two new businesses opened in the Bird Hall Block at East Walpole—the Scuttle Shop (antiques) and Wholesale Beef Outlet, Inc.

South of the center, in the building formerly operated as The Echo Inn, the Walpole Arena opened in December, holding wrestling bouts on Saturday nights.

For the twelfth time in 29 years the Walpole High School Hockey Team won the Bay State Hockey League championship. The victorious team also entered the state competition, losing to Melrose in the semi-finals of this series.

Early in the year Bruce Farrar resigned as Town Accountant. On July 17 Henry B. Adams of Northboro, who had been serving as temporary town accountant, was appointed to fill the vacancy.

The Town lost one of its valued citizens in the death of Harold Miller Higgins on February 1. He had been patrolman on the police force for 26 years and served as a selectman for six years, from 1955 to 1960. His mother, who survived him, was one of Walpole's oldest residents at the time of her death on August 5 at the age of 93.

In February the newly-appointed Conservation Commission made its first report to the Town. Looking far into the future, it made several solid recommendations for the conservation of open land areas and the wildlife they contain. The Town is fortunate in already having over 120 acres in its two parks, Memorial Park and Francis William Park; nearly 75 acres in playgrounds and school sites; and 360 acres in Town Forest. The com-

HAROLD E. "MILLER" HIGGINS,

a Selectman for five years and a long-time member of the Police Department, died on February 1, 1962. His service in the Police Department totalled 27 years. Following his retirement in 1954, he was elected to the Board of Selectmen in 1955 and remained on the Board until 1960. He gave unselfishly of his time in both law enforcement and administration of town affairs.

Commenting on his life of service, Police Chief Haggbloom writes: "His passing leaves a void that will be difficult to fill. His mirth and merriment were well known to the school children that are the parents of today. His was the arm of the law that held the friendly hand of aid and comfort."

mission recommended no additional park sites at present, but rather, an improvement of existing sites and the establishment of a 'green belt' area which would preserve existing stream valleys and protect the streams from pollution. They further recommended public acquisition of land areas surrounding most of the town's natural ponds. The first step in this direction was taken with the purchase of Clark's Pond on Stone Street, by action of the Town at its annual meeting. The transfer took place in June.

Foliage Day, sponsored by the Conservation Commission, and held at the Town Forest on a bright Sunday afternoon, September 30, was a great success. Many hundreds of citizens were conducted on tours by guides and were impressed with the beauty of the area.

On recommendation of the Conservation Commission, a meeting of interested citizens was held on September 24 to promote the formation of a Land Trust. A committee formed for this purpose, with Geoffrey Plunkett as chairman, is presently at work drawing up the Trust Agreement and selecting the Trustees.

The Board of Selectmen appointed a new Industrial Commission in 1962, following the resignation of the former board members. The new Commission, headed by Bernard P. Goldsmith as chairman, makes its first report in this Town Report.

Thus, the Town has grown in 1962 and at the close of the year was in a favorable position.

1962	5 Selectmen and Full Time Clerk	7,052.96	6,485.73

At the close of 1962 the balance in the Excess and Deficiency Account amounted to \$414,708.87.

This has been a year of cooperation and study for the Board of Selectmen with the Master Planner, the Conservation Commission, the Industrial Commission and various Town Officials.

The re-constituted Industrial Commission has spent the year in studying the need and desirability for encouraging new industrial capacity to locate in the Town and the results of their comprehensive and excellent study are contained in the pages of this Annual Report. We recommend them as good reading, particularly the Equalized Tax Rate Comparison with surrounding towns.

The Conservation Commission has made its first purchase, namely Clark's Pond, for the benefit of the Townspeople and are studying the overall needs of land preservation and future acquisition.

The Master Plan of the Town is under intensive study for up-dating and revision due to the impact of continued building on the Town and anticipation of the changes which will result from the new Interstate Route 95 as it joins Route 1 at Walpole.

The installation of the Interceptor Sewer authorized last year with the Town of Norwood is nearing the Walpole line at year end and will ready a new area of East Walpole for Metropolitan Sewage connections and should help reduce the pollution of Traphole Brook.

We welcome Mr. Henry Adams as our new Town Accountant. He

brings a wealth of experience to us from his former employment as a Municipal Examiner with the State Bureau of Accounts.

Our own Selectman, 'Ted' Delaney, was elected to a second term as President of the Norfolk County Selectmen's Association.

Janice Wilkins, our ten year member, and Chester Parasco, our five year member, announced their retirement from the Board of Selectmen by not seeking re-election. The gratitude of their colleagues on the Board and the citizens of the Town goes with them.

Many discussions were held with Town officials and citizens on subjects including Civil Defense, Water Supply, Town Administrative Reorganization, Wages and Salaries, and Storm Drainage.

Meetings were held with the Norwood Board of Selectmen regarding Conservation, Drainage and Sewage and a joint meeting with the Selectmen of Sharon and Foxboro initiated a preliminary study on the advisability of a jointly operated Municipal Incinerator.

To all we extend our thanks for patience and assistance in helping to make our Town a substantial and progressive community.

This report covers the work of the Highway, Park, Water and Sewer crews, comprising your Public Works Department. The above figures are the operating budgets for these crews.

HIGHWAYS

ROAD CONSTRUCTION

1. Norfolk Street was completed except for a final surface which will be applied when traffic loads justify it. A small drain at the westerly end is requested for 1963.
2. Construction was begun on North Street near the Westwood line under Chapter 90. Cold weather forced a halt but not before all of the drainage and much of the excavation had been completed.
3. We undertook some work on Norton Avenue under Chapter 195 of 1958 but had to discontinue due to cold weather.
4. Connecting roads were built between our new Public Works Department garage and Washington Street, South Street and the old Public Works Department area.

DRAIN CONSTRUCTION

1. Work was started on a drain from Baker Street to a low area east of Washington Street. This is intended to drain the newly developed area north of Baker Street and is being built in cooperation with the developer.
2. The drainage work on Plimpton Street near Lewis Park was completed.

SIDEWALK CONSTRUCTION

1. A walk was completed on Coney Street, east of Route 1.
2. A walk was completed on East Street, near the Blessed Sacrament Church.
3. The walk and curbing at the intersection of Main and East streets, begun last fall, was completed.

RESURFACING

A three-quarter inch bituminous pavement was placed on Washington Street between Bird Avenue and May Street, and on Winter Street near the Norfolk town line. Five-eighth inch thicknesses of the same material were placed on Scout Road, Pilgrim Way, Pocahontas Street, Shawnee Street, Ossipee Street, Occident Circle, and Orient Circle, where sewers had been installed last year. This work was all handled exclusively by contract.

The following streets were sealed with asphalt and stone: Allen; Allston; Brook Lane; Brook; Brown; Bruce; Bullard; Burns; Cedar, west to Conifer; Chandler; Charlesgate; Chestnut; Common, Washington to Sharon; Conifer; Diamond; Eastover; Elm Road; Fisher, north to Fisher Lane; Gill; Gleason; Granite; Hale, lower half; High, from 1961 asphalt to end of pavement; High Plain; Irving, south to Maude; Lincoln, last 1,000 feet; MacDonald; Maude; Mylod, railroad to Norwood; Norfolk, Main to Allen; North Lewis Park; Old North; Old West; Park Street; Pemberton, last 200 feet; Pine; Ponderosa; Raymond; Robbins; Sandra; South, garage access to Pine; Stone Street extension; Summer, last 2,000 feet; Main; Walnut; Winter, railroad to Main; and Woodruff.

We applied 9,713 gallons of tar, 58,667 gallons of asphalt, and 603 tons of bituminous concrete in our surfacing program. This does not include materials used in the road construction program.

An experimental treatment of asphalt was placed on Old Post Road with unsatisfactory results. As in previous years, calcium chloride was also applied to Old Post Road.

EQUIPMENT

We purchased a sidewalk plow of the vee type, a sidewalk sweeper, and a heavy dump truck which will be delivered in 1963. The sidewalk sweeper is used for sweeping the sidewalks in both business centers on a weekly basis and the floor of our Municipal Garage. This is another example of the mechanization of previously manual jobs.

PARKS

MOWING

Mowing of grassed areas continues to be the principal occupation of this crew in terms of man hours expended. A small tractor-mower combination was purchased which further expedited the mowing work.

SHADE TREES

As in 1961, no aerial spraying was done. We removed 73 shade trees, mostly elms, and planted forty-two, mostly maples. In addition to those removed for natural causes, we also removed twenty trees for sidewalk construction on East Street and Coney Street. A mist blower spray was applied to selected elms and 103 trees were pruned and trimmed. Most of this sanitation work was performed in the common opposite the post office, the South Walpole Common, East Street and on the High School and Boyden School grounds. We picked up eighty-seven loads of leaves weighing approximately 240 tons from the public streets and added them to our mulch pile.

TOWN FOREST

Our work in the forest was greatly expanded through the cooperation of Sheriff Hedges who loaned us the half time services of a ten man crew from April to December. We were able to clear an extensive area between Washington Street and Route 1. The silviculture performed will result in better forest growth, improved fire access, a fine hiking trail, and even some sawlogs which will be taken to the mill next year. Photographs of this work are elsewhere in this report. This entire program was accomplished at no cost to the town except for transportation of the crew from Dedham and the supervision by our foreman.

The sale of firewood to a local industry yielded \$225.00.

WATER AND SEWER

WATER

Number of gallons pumped in 1962	632,016,000
Number of new services	113
Number renewed services	26
Total Number	3694

Since 1959, our consumption has declined 15% while the number of services has increased 11%. We believe this is due principally to the increasing re-use of water by our major industries, and also to steps taken by the Town to conserve water.

These steps have included the reduced use of bleeders, discovery and elimination of leaks in the Bird Park Area, filtering and re-use of the South Walpole swimming pool water and sealing all meters.

Voluntary restrictions on the use of water for lawns were applied during the summer. These restrictions are troublesome and we hope to locate new sources to alleviate this problem. A number of meetings were held by the Selectmen to resolve this problem and while possible solutions have been explored, no definite conclusions have been reached yet on this matter.

New water rates went into effect at mid-year. The rates are intended to encourage conservation as well as increase revenue. Those whose use does not exceed 6000 cubic feet are paying the same rate as before but the excess costs more.

The following installations were made in streets by the Town, or contract forces:

Street	Length	Type	Hydrants
Benny	606	6" Cast Iron	1
Bird School Drive	348	6" Cast Iron	1
Haynes	322	6" Cast Iron	
Mylod	18	8" Cast Iron	
North	1240	6" Cast Iron	1
Pleasant	2178	12" Asbestos Cement	2
Polley	878	6" Cast Iron	1
Sumner	425	6" Cast Iron	
Walcott	1106	12" Asbestos Cement	1
Walcott	30	12" Cast Iron	

The major job above was the Pleasant and Walcott installation which tended to improve pressure and flow over a wide area of East Walpole. A total of 332 ft. of 6" Cast Iron pipe was installed for the side street connections—in Coney, Fuller Ave., Gould Ave., Park, Pleasant, Regent Circle, Rhodes Ave., Union and Woodland Road, and 58 feet of 12 inch Asbestos Cement was installed in Union.

The following installations were made privately by developers:

Street	Length	Type	Hydrants
Breezewood Lane	990	6" Cast Iron	1
Bruce Road	524	6" Cast Iron	
Cobb Terrace	900	8" Cast Iron	1
Countryside Lane	774	6" Cast Iron	2
Hemlock Extension	324	8" Cast Iron	
Lee Street	756	8" Cast Iron	1
Mert Street	360	8" Cast Iron	
Woodward	1240	8" Asbestos Cement	1

Altogether, 9,701 feet of new main or 1.84 miles was added to the system, and 3,722 feet or 0.71 miles was renewed. Our system total is now 75.28 miles with 490 hydrants.

Other work included painting the West Walpole elevated tank, surging and cleaning the South Street gravel packed well, and extensive cleaning of a well line west of Washington Street.

SEWERS

Sewer laterals were installed by the A & S Construction Co., as follows:

Carpenter	668	8
Hutchinson	475	8
Marguerite	260	8
Main outfall at dam to Hoover Road and in Hoover Road	1000	10
	<hr/>	
	2403	

At year end, some work in Hoover Road, Union Street, and Brook Lane remained to be done. An interesting feature of this year's work was the railroad crossing near Hoover Road, which was accomplished by jacking. The 0.45 miles of sewerage installed brings our system total to 18.41 miles.

The construction of the joint interceptor sewer in Norwood was begun this year, toward which we are contributing approximately 30% of the cost.

Seventeen new services were installed, bringing our total to 857.

EQUIPMENT

A pickup truck was replaced.

The following major repairs were made in various public buildings, in accordance with the Permanent Advisory Building Committee program:

Bird School: Four classrooms converted to fluorescent lighting; 37 additional classroom blackboards provided.

Old Fisher School: Basement storage room converted to lounge, independent access provided to existing toilet.

New Fisher School: Plastic bubble installed over one skylight as experiment.

Plimpton School: Condensate return pump replaced.

New Stone School: Exterior painted; portions of classrooms painted; repairs made to slate roof; gutters replaced.

Old Stone School: Exterior painted, stair treads replaced, condensate return pump installed.

High School: Sinks installed in two rooms, slate blackboards replaced, folding partition in gym painted, heating and ventilating system renewed.

High School: Sinks installed in two rooms, slate blackboards replaced, folding partition in gym painted, heating and ventilating system renewed.

Center Fire and Police Station: Two inch water line installed, exterior painted.

East Walpole Fire Station: New boiler installed, basement stairs enclosed, fluorescent lights installed, kitchen facilities moved and improved.

South Walpole Fire Station: Fluorescent lights installed.

Center Library: Five exterior conductor pipes installed, baffle wall installed near front doors.

Of the above jobs, the principal one was the repair and renovation work done to the heating and ventilating system of the older portion of the High School. This was a continuation of a two year program and was nearly complete at year end.

Purchasing

Contracts totalling \$273,700.00 were awarded through formal bidding procedure. This amount was almost equally divided between goods (22 contracts for 24 items) and services (12 contracts) and is up somewhat from last year but below the 1960 figure.

Some of the larger contracts were:

Sewer Construction—\$79,860.00; A & S Construction Co., Hyde Park, Mass.

Fuel Oil—\$30,000.00 (approx.); Cleveland Oil Company, Walpole.

Heating Renovations—\$22,793.00; Main St. Plumbing & Heating, Walpole.

Road Materials—\$19,500.00 (approx.); West Sand & Gravel, Walpole; Trimount, Everett; Norfolk Asphalt, Westwood.

Water Pipe—\$17,250.00; Shahmoon Industries, Boston.

Plumbing Inspector

EDWARD F. ONION, *Inspector*

Two hundred seventeen plumbing permits were issued and inspected during the year, with satisfactory workmanship throughout the Town. All complaints were investigated and taken care of.

Wire Inspector — Town Electrician

CHESTER L. DONNELL

A total of 745 inspections were made during the year.

Among other installations were the following:

- Installed lighting around the outside of the town garage.
- Installed sign machine at the water department office.
- Installed wiring in police pistol range.
- Re-wired receptacles in rooms 114-A-B in high school.
- Replaced gym fixtures in section A at the high school.
- Replaced underground service to old town garage.
- Installed (4) rooms of new lighting at the Bird school.
- Installed new lighting in the school department office.
- Installed new lighting in the east fire station.

Carried on maintenance of all electrical equipment and wiring in town owned buildings.

All complaints concerning electrical installations were investigated and taken care of with satisfactory results.

Town Sanitarian

PUTNAM STEELE, *Sanitarian*

Inspection and percolation tests to determine type of soil were made on each building lot before permit was granted, if individual sewage disposal system required. The specifications of the required sub-surface sewage disposal system are furnished builder, copy filed at Town Office. Inspection before backfill is made to determine construction of system and

in many cases progress inspections are made. Repairs or additions to existing systems were investigated if requested and suggestions made to obtain satisfactory results. Complaints were investigated and corrective measures taken to abate nuisance.

Eating and drinking establishments were inspected and bacteria swab counts made of utensils for laboratory analysis. Bacteriological water analysis of drinking water supply and town swimming pools was made during season. Laboratory analysis was also made of some waterways and drainage water.

High bacteria counts in milk samples averaged about the same as 1961. Spot checks on refrigerated dispensers have been continued, and not a single sample has been found to be outside the legal limit.

Required reports were filed with the State Board of Health and the

Federal Market Milk Administrator. In line with our plan to cooperate with the State Health Department in regards to spot checking samples for detection of antibiotics in milk, we have continued to do so.

The milk inspector attended a meeting at the University of Mass. in July on "Radioactive Fallout and Our Milk Supply."

All restaurants and milk dealers selling milk in Walpole were licensed and refrigeration checked.

School Dentist and Dental Hygienist

EDWARD SMOOKLER, D.M.D.

ALICE BOURASSA, R.D.H.

MRS. PHILLIP ZLOCHIVER, R.D.H.

This year in order to cope with the steadily increasing school enrollment, another hygienist, Mrs. Phillip Zlochiver, of Canton, was appointed in September.

Because of an added hygienist the program can keep up to its past standards and be expanded by giving topical applications of sodium fluoride to children of the second and fifth grades. Monthly classroom visits as usual are made by both hygienists.

The school dentist, Dr. Edward Smookler, rendered all dental services for children eligible for such services at the dental clinic, two days per week.

The type and number of dental operations are listed below:

	Deciduous Teeth	Permanent Teeth
Number of Extractions	146	15
Number of Fillings	766	1214

Health Officer

JOHN J. HAYES, JR., M.D.

The general health of the community has been excellent. There has been an increase in the number of measles and chicken pox cases throughout the Town; however, this is in line with the general population increase.

A highly successful program was carried out this year in which all preschoolers and all children in the school system took advantage of the Sabin Oral Polio Vaccine. There were no polio cases reported in this community during 1962.

A new system was inaugurated in the management and follow-up treatment of all active and inactive tuberculosis cases under the supervision of the State Department of Public Health.

All complaints to the Department were investigated and corrected.

The Health Officer wishes to extend his sincere appreciation to all who have contributed in making this a successful year.

Inspector of Animals

DR. FRANCIS X. MAGUIRE, *Veterinarian*

All places where livestock is kept were inspected.

All cattle coming into herds and premises with cattle were inspected and reported to proper state authorities. Where any cases of disease were discovered, proper quarantine and sanitary measures were taken.

As our population grows, the number of dog bites increases.

No cases of rabies were found.

Swimming Pools

ROBERT M. GRANNEY, *Supervisor*

The swimming season opened on July 1, 1962 and classes were held in Junior and Senior Red Cross Life Saving. About 1000 children registered for swimming lessons at the South and Center Pools. Red Cross classes in non-swimmers, beginners, advanced beginners and intermediate, were well attended.

The newest attraction this year was the organization of the Suburban Swimming League. The league included Walpole, Needham, Canton, Wellesley, Medfield and Sherborn. During the season there were many exciting dual meets held with member teams. The final meet of the season was held at Needham, with all member teams competing. The Walpole swimmers, coached by Ellen Powers, won a total of 22 medals.

Playgrounds

CHARLES A. HANEY, *Supervisor*

For eight consecutive weeks during the summer the five town playgrounds were open Monday through Friday, from 9:30 A.M. to 12:00 Noon, and from 1:00 P.M. to 4:00 P.M. on all fair days.

Our playgrounds are located at Blackburn Memorial Building, Plimpton School, Bird Park in East Walpole at the music court, South Walpole at the Boyden School, and North Walpole behind the old Fisher School. Each playground has a male and a female leader who supervise all games and activities during playground hours.

During the playground season a wide variety of activities was offered to the children of Walpole. Baseball, softball, horseshoes, badminton, touch football, whiffle ball, croquet, and ping pong were some of the active games played daily. Many quiet type games such as checkers, scrabble, chess, monopoly, sorry, dominoes, bingo, parcheesie, and the new game of "Life" were available at all playgrounds.

In addition to the regular playground games, the summer playground program featured many special events. The play areas each held a scavenger hunt and a coloring contest. Also, tournaments were conducted in ping pong, horseshoes, badminton, checkers, chess, and the basketball free throw. As always, most popular of the special events was the trip to Fenway Park which enabled the children of Walpole to watch the Red Sox defeat the Cleveland Indians by a score of 4-1. Also very popular, and climaxing the program, was the annual field day held on August 22 which featured tournaments in the morning and competitions for all in the afternoon.

IN MEMORIAM

The Public Works Department lost two valued employees—William Geehan in late 1961 and Martin Williams in 1962.

Mr. Geehan had worked as a carpenter in our Building Maintenance crew since 1950, while Mr. Williams had been a Road Equipment Operator in our Highway crew since 1945.

Both men will be missed for their fine qualities and many contributions they made to the Town.

Department of Weights and Measures

KURT R. GROOTE, *Sealer*

During 1962 the following services were performed:

SEALED

Scales over 10,000 lbs.	15
Scales 5,000 to 10,000 lbs.	5
Scales 100 to 500 lbs.	59
Scales under 100 lbs.	73
Weights	174
Yardsticks	10
Liquid Measures	10
Meters (Gas Pumps)	60
Meters (Oil)	4
Vehicle Tanks	28
Bulk Storage Stations	3
Grease Measuring Devices	15

Total receipts of \$360.65 were turned over to the Town Treasurer. All scales in the schools and those of the Town Health Officer were checked and sealed. Commodities were re-weighed and all complaints received were attended to. Frequent inspections were made with the State Inspector.

Permanent Substitute Nurses

ELIZABETH M. PERRY, *Treasurer*

The year 1962 has been a very active one in the history of the Walpole Visiting Nurse Association. A record number of 8959 visits was recorded by our nurses.

Public health visits and poliomyelitis immunizations continue to lead in our services. We assisted the Public Health Department at two polio clinics, at which a total of 4305 pre-school children were immunized. In addition, our regular program of instruction to mothers in the care of the newborn and rehabilitation of the chronically ill continues.

At Thanksgiving, in co-operation with the Public Health Department, turkeys were distributed to many families and at Christmas, gifts of clothing, toys and food were made possible through the kindness of our local organizations and citizens.

In June it was with regret that the directors accepted the resignation of our Head Nurse, Miss Luella R. Hennessey, who had been with us for twelve years.

May we once again call to your attention that our nurses are as near as your telephone and through them you, the citizens of Walpole, may be the beneficiaries of many aids to make your illness less burdensome and your recovery more rapid. We now have two staff nurses and two permanent substitute nurses, and each year our supply of equipment increases in variety. Many items were used and greatly appreciated during the year.

Remember that our organization exists to serve you, the people of Walpole. In so doing this year we again take this opportunity to thank all citizens and organizations with whom it has been our privilege and pleasure to work and who make it possible for this work to continue.

Committee for Special Recreation

RUTH ADELE HOLMAN, *Chairman*

PHILIP S. FASSNACHT

CHARLES A. HANEY

The Town of Walpole, acknowledging its community responsibility to the mentally handicapped, voted at the Annual Town Meeting in 1962 to sponsor a program of special recreation for said persons. The Selectmen appointed a committee of three to establish such a program under town sponsorship.

The Committee for Special Recreation, in carrying out its assigned duty, adopted the program initiated as a pilot project by the South Norfolk County Association for Retarded Children, Inc. in 1956 and conducted in Walpole on the Dutton Estate.

The program was geared to the mental and physical abilities of mentally retarded persons who could profit from such an experience and it also enabled each individual to broaden his understanding and ability in recreational interest, socialization, health habits and understanding of people. It was conducted for seven weeks during July and August for five hours daily. The facilities of Milbrook were made available for the program through the warmth and generosity of Mrs. George D. Dutton.

Thirty-two youngsters from Walpole and six communities in the periphery of the town participated in the developmental program under the supervision of a staff of five including a director, assistant director and three counselors. The staff was assisted during the season by two volunteers sponsored by the SNCARC, Inc. Acts, crafts and play periods were supplemented with field trips, swimming and water safety at Memorial Pool, and training in health habits and social graces. In the closing week of the day camp an Open House was held in which the children participated, demonstrating that these youngsters can function and learn in a group situation and extending public awareness and knowledge of mental retardation.

The Committee, with a budget of \$3,000.00, had a total expenditure of \$2,984.77. Tuition was charged for each child attending from a neighboring community, and reimbursement for one-half the cost of the program was received from the Commonwealth of Massachusetts. Also, reimbursement was received from the Commonwealth for participation in the National School Lunch Program. The actual cost to the Town of Walpole for the year was \$169.49.

No program can exist in a vacuum separated from the community of which it is a part. Therefore, it would be most remiss of this Committee not to acknowledge here the appreciation it holds for the cooperation and kindness of the personnel at the Town Hall in assisting the Committee in conducting its business, and also that of Mr. Robert Graney for making the facilities of Memorial Pool available for the campers and staff.

On June 1, 1962 William Wall and Paul Poirier were sworn in as permanent police officers. The above named, plus the special officers appointed to replace Wall and Poirier, and two others who had resigned, went through an extensive six weeks' training course which was comprised of traffic control, firearms training, court procedure, investigation, first aid, public relations, and other police procedures.

The Police Pistol Team again enjoyed a very successful year. They won the Norfolk County Trust Company Trophy for the fifth time since the league formed seven years ago. The team also competed in the New England Police Revolver League which is comprised of over 1500 teams and it also competed in the NERPI matches in North Attleboro. In both, our team walked away with many top team and individual honors. The team is rapidly becoming recognized as one of the best police teams in the Eastern part of the United States.

In the past year and with the cooperation of the F.B.I. and the local school department, our department conducted a seminar at the Walpole High School. The seminar consisted of police problems in regard to Massachusetts and Federal laws. Police officers from fourteen surrounding towns attended and it proved to be a very successful enterprise.

The year 1962 passed by without a serious major crime problem or a serious juvenile problem. I believe this is due to the constant "Police Preventative" work undertaken by the officers in our department, for it is this type of work that keeps all phases of crime and other violations from getting out of control.

A study and survey of present vehicle and pedestrian traffic problems in our Center has been undertaken and recommendations will be forthcoming after it has been determined whether or not our Town will either accept or reject the new Massachusetts Pedestrian Law. If accepted we will have to be guided by and comply with certain State rules and regulations pertaining to traffic lights and crosswalks.

Other studies are also being undertaken to determine how we can best serve and protect the citizens of Walpole in all phases of safety.

I express my sincere appreciation to the police officers, to the Town

officials, the Justice, the Clerk and all the personnel of the District Court and to all others for their cooperation, assistance and understanding of the problems that still confront a new Chief.

In 1962 several changes were made in the apparatus response to building or structural fires. Where previously the South Walpole area received only one engine on a first alarm assignment they now receive two engines and an aerial ladder. The Center, East, North, and West areas previously received only one engine and one aerial ladder on a first alarm assignment. They now receive two engines and one aerial ladder thus giving all areas of the Town equal and better protection and coverage.

Our practice and training program has been notably stepped up this year through mandatory drills held once a month and voluntary drills held once a week. The experience gained at these sessions is self-evident in the keener interest and greater proficiency shown by the men at fires.

Many meetings were held with the Permanent Fire Committee (Fire Chief, member ex-officio). This Committee recommended to the Selectmen that fifteen men be employed as permanent fire fighters.

A better Mutual Aid system between Walpole and the surrounding towns was worked out and has proven very successful several times this past year.

There has been a considerable increase in the number of runs in 1962 due partially to the serious forest fire hazard we experienced last spring. The variety of calls received ranged from bomb scares to death by fire and from cats in trees to people wanting us to fix their TV antennas.

I wish at this time to thank my fellow fire fighters for their fine cooperation. I also wish to thank the many Townspeople who have been such a help to me in my first full year as Fire Chief.

Fire Alarm Maintenance

During the year five fire alarm boxes were replaced due to obsolescence. Six new fire alarm boxes were installed at new locations in residential areas and one new fire alarm master box was installed on a commercial building by the owner. Expansion and changes in our outside circuits continued as scheduled for the year. All boxes were checked periodically for defects and rewound after each alarm. The wire replacement program continued as in previous years.

Service interruptions on our system were negligible. The wire and box replacement programs in addition to other regular and preventive maintenance were the factors in maintaining this excellent record. A total of 2411 man hours were expended on maintenance, testing, repairs and new construction during the year. A total of 248 alarms were sounded over the system during the year; this was a twenty-five percent increase over the previous year.

A change in our central station circuit panels to a higher voltage has provided greater capacity in all our outside circuits. Due to other technological changes incorporated with the increase in circuit voltage, future battery maintenance and replacement has been reduced to a minimum.

During the year a used fire truck was obtained for fire alarm use. A reconditioned thirty foot aerial ladder was mounted on this truck, greatly extending its usefulness. Tools and material will be stored on this truck, providing for faster response during trouble on our system and other emergencies within the town. It will also serve as a line truck for regular maintenance and construction work throughout the year.

LIBRARY ESTABLISHED March 13, 1876

ON INTERNATIONAL NIGHT Mrs. Robert M. Ritcey and Mrs. Nesi Ali-Oglu meet at the Walpole Library.

ARRANGE EXHIBIT. Members of the Walpole Conservation Committee arrange exhibit at Center Library. Mrs. Vera DeRosa, Mrs. Lucy Ellen Hill and Raymond H. Beaudet, Jr.

In February 1962, Mrs. Marcia Carleton, who had been Children's Librarian at the East Walpole Branch Library for two years, resigned when her family moved to Wisconsin. Mrs. Vida Mudgett, Part-Time Librarian at the North Branch Library, was promoted to this position. However, for reasons of health, Mrs. Mudgett was unable to assume the duties of Branch Children's Librarian, and the Trustees are still seeking a qualified applicant to fill this vacancy.

The North Branch Library was very fortunate to obtain, as Part-time Librarian, Mrs. Gabrielle B. Tremblay, who had had previous experience in library work at the MacArthur Library, Biddeford, Maine. The North Branch began a six day week schedule in May 1962 with the same hours, 2 to 5 o'clock. Because of the increased volume of work involved by the seventy-five percent rise in circulation at this North Walpole Branch, an adult assistant was needed. Mrs. Kathleen Barney, who has been a devoted library patron for many years with a wide knowledge of children's books and authors, took over these extra duties. The town can well be proud of this branch library which furnishes so much reference material to the many bus pupils who would otherwise be unable to obtain this extra information for home-work assignments.

Efforts are underway, at this time, to furnish library book service for South Walpole which is located at a distance of three miles or more from the center library. The heavy use of this library would be by children of

elementary, junior high, and high school age who are having more homework now than in past years. The responsibility of supplying supplementary information for study is still expected of the town's public library since the time allowed in a school day to use the school libraries is limited. Unless a vacant store building located in the center of South Walpole can be made available, the outlook is not bright for this South Walpole project.

The book shelves of the center library are filled to capacity and, although a close inspection is done every year to remove shabby, dirty books, and obsolete, outdated material, there is much worthwhile reading matter which cannot be discarded indiscriminately. The library's total collection is now over fifty-five thousand books and many townsfolk and visitors remark that Walpole has a fine selection.

The extra use of the Reference Room and Study Room, which is on the lower floor, is most satisfying. Because the Reference Room has limited seating for students, it was decided to make use, in the evening, of chairs and tables in the Young People's Room. In November, this area was converted to a Study Room under the supervision of Mr. Joseph Nicholson, who teaches at a Walpole school. The Trustees and Head Librarian plan to enlarge the reference collection by using part of the money received from the State-Grant-in-Aid which amounts to \$3,517.00 or 25c per capita according to the 1960 census.

The Head Librarian and East Walpole Branch Librarian attended the First Governor's Conference on Libraries, on April 12th, at the invitation of His Excellency John A. Volpe, Governor of the Commonwealth of Massachusetts. National Library Week, April 8-14, was observed with book and poster displays on Main Street, under the chairmanship of Mr. Joseph G. Needle. On UN Day, October 24th, International Night was observed with a social evening at the center library when friends who could converse in a foreign language met one another to share their linguistic knowledge. Mr. Ernest S. Camelio, Jr., Director of the High School Foreign Language Department, and Mr. John M. Gray, of the High School English Department, with a committee of high school students, assisted the librarians to make this venture a success, which we hope to repeat in 1963.

National Children's Book Week, November 11-17, was featured by a display of three hundred books at the Blackburn Memorial Hall. Mrs. Louise H. Hawkins, newly appointed Supervisor of Work with Young People, directed the visits of the school children who came with their

teachers at fifteen minute intervals. This is the third year that the library has moved books to the Blackburn in order to accommodate the great numbers of interested children. Mrs. Hawkins, who is a graduate of Middlebury College, conducts a weekly Story Hour, at the center library, from November to April. The East Walpole Branch offers a similar program which is being conducted, at present, by Mrs. Mudgett. The East Walpole Branch also has art exhibitions and musical teas during the year. The Summer Vacation Reading Club can boast of 815 members for 1962. An inventory of the adult non-fiction at Main Library and all books at the North Walpole Branch was completed this year.

We are grateful to all donors of books and periodicals and wish to mention, in particular, authors who presented gift copies of their books. These include: *Our Church and Its Ancestors* by Alton C. Roberts; *The Art of Crewel Embroidery* by Mildred J. Davis; and, *Operation Crossroad Africa* by Ruth T. Plimpton.

Grateful acknowledgement is made to Mrs. Margaret Heaps, High School Librarian, for her advance notices of topics being assigned by teachers and book suggestions to be correlated with the requirements. An invitation was extended to the Town Librarian, by the School Librarians, to attend the Area II meeting of the Massachusetts Association of School Committees. Mrs. Heaps spoke, at this time, of our combined efforts as partners in handling the problem of supplying books in all areas to the young people of Walpole. This cooperation of library and school in educating the youth of a town cannot be overestimated.

The Librarian thanks the Trustees for their wise counsel, and, particularly, Mr. Chester H. Andrews who resigned from the Board of Trustees after having served since 1934. Mr. John F. Ryan was named by the Board of Selectmen to fill this interim vacancy.

The members of the staff and the branch librarians have worked diligently to supply the book needs of the public. Some of the personnel are studying, at the present time, in order to perform their library duties more capably. Mrs. Dorothy Wronski received notification from the State Board of Library Commissioners that she successfully passed the three hour state examination and had fulfilled requirements for the Professional Librarian's Certificate. This recognition can only be brought about through study and effort. The Trustees and Librarian appreciate the extra hours expended by the staff in furthering their professional education.

Recognition was paid to Mrs. Eva Lindequist, in December, by the Trustees and staff, when an inscribed pewter bowl was presented to her for twenty years service with the Walpole Public Library.

Your Counsel has fulfilled all obligations imposed upon him by the Charter and By-Laws of the Town of Walpole, by rendering opinions to the various officials, committees, elected and appointed, as well as representing the town in claims, suits and bills in equity against the town and against individual officials of the town.

On July 26, 1962 an Act entitled "regulating the activities of state, county and municipal employees and establishing a code of ethics for said employees" was approved by the Governor, to take effect on May 1, 1963. This statute is commonly referred to as the "conflict of interest" statute and has been the subject of widespread newspaper publicity during the early months of 1963. The statute is too lengthy to discuss in detail here, as each individual case must be determined on its own merits. It adds an additional burden to the work of your Town Counsel, as under its provisions any municipal employee shall be entitled to the opinion of the Town Counsel upon any question arising under this chapter relating to the duties, responsibilities and interests of such employees, if such requests for opinions are submitted to the Town Counsel through channels as provided by the statute.

I wish to thank all town officials and committees for their cooperation, and special thanks to Mr. Robert Boyd our Town Administrator for his cooperation in securing easements for drainage and sewerage purposes. Over the past year considerable work and time has been entailed in the drafting of the necessary papers and interviewing citizens for the purpose of securing the easements.

Veterans' Services

JAMES J. FITZGIBBONS, *Director-Agent*

During the year 1962 this office has creditably provided the necessary services to approximately 200 of Walpole's veterans and their dependents who sought the services of this office.

Due to advice and counseling given by this office to several World War I veterans they were able to obtain Federal Benefits about which they had been unaware.

We urge all veterans and their families who may have any business with the Veterans' Administration to use the Walpole office.

We have been able to obtain hospitalization in Veterans' Administration hospitals for several veterans who needed this service, and we have assisted needy veterans and their dependents under Chapter 115, to the amount of \$12,780.59, of which \$4,968.49 was for medical care. The total amount expended was \$3,000.00 less than in 1961.

At this time we express our thanks to all that may have assisted us in any way during the past year and look forward to a continuance of this cooperation in 1963.

On investments made in U. S. Treasury Bills and time deposits by the Treasurer in 1962 the Town realized interest of \$8,765.00.

On December 31, 1962, the bonded debt of the Town of Walpole was \$2,851,000.00

The total is divided as follows:

New Stone School	\$170,000.00
Sewer Construction	6,000.00
School Project Loan, 1954	550,000.00
School Loan, 1954	360,000.00
East Junior High School	1,105,000.00
School Loan, 1959	510,000.00
Boyden School Addition	150,000.00

\$2,851,000.00

Our present debt limit as fixed by law is \$1,753,079.00. Of the \$2,851,000.00 total debt, \$1,760,000.00 is outside the limit and \$1,091,000.00 is inside the limit. The debt limit is arrived at by taking the average valuation of the preceding three years and multiplying that figure by 5%.

Appropriations must be made in 1963 for the payments of bonds and notes amounting to \$232,000 and interest of \$80,998.75.

The year 1962 has proven to be one in which our department has experienced tremendous activity in the various categories of relief.

All programs of assistance are being accelerated and in so doing the department is offering extended social services to all recipients of relief. We are thereby assisting the individual to a more productive life and to become self-supporting; in other words we feel that the applicant for public assistance should be taught to attain self care and self support. We are constantly stressing the importance of home setting, homemaking, physical and mental health, social functioning, employment and rehabilitation potential. This necessitates extra work in all areas of the department.

We experienced the usual increase in the per diem rates for hospitalization and care in Public Medical Institutions as well as many Legislative changes with reference to residence in Old Age Assistance; increase in Transportation Allowance in Old Age Assistance; redefinition of procedures followed when determining parental support in Aid to Dependent Children; establishment of a Central Registry for Registration and Location of Missing Parents; deletion of payments by the local Board of Public Welfare for those children transferred to the Division of Child Guardianship for care, and many others.

The department continues to make appropriate recoveries under the lien law for Old Age Assistance as well as recoveries under other categories when applicable.

We have endeavored to give you a general picture of departmental activities and we wish to thank all those individuals and organizations who have assisted us in serving our applicants and recipients.

1962	1 part time	595.00	489.60

The Town's Planning Board regularly meets on the third Tuesday of each month and holds special meetings when necessary.

Meetings were held during 1962 with other boards and committees of the town in the interest of implementing the Master Plan and other matters pertaining to planning for the town.

The Board accepted with regret on Sept. 25, 1962 the resignation of Harold M. Smith who served for twelve years on the Planning Board, and at a joint meeting with the Board of Selectmen in October, John Cosman was appointed to succeed Mr. Smith.

Bruce B. Farrar, clerk to the board, resigned on July 1, 1962 and Henry B. Adams was appointed to succeed him.

During the year several hearings were held in connection with subdivisions, zoning changes and acceptance of streets.

The Board has on several occasions met with Allen Benjamin and discussed the Master Plan recommendations. Mr. Benjamin is engaged in bringing the Master Plan completely up to date, the expense of which is being taken from Mr. H. P. Kendall's bequest for that purpose.

The Board is considering the advisability of hiring a planning engineer full time to work with the Town Engineering Department in matters relevant to town planning and to facilitate the carrying out of the Master Plan recommendations. Mr. Benjamin has recommended that such an employee would be invaluable and could perform the following duties:

1. Checking in the field all proposed zoning changes and preparing maps of same.
2. Keeping the zoning map up to date.
3. Keeping the base map of the Town up to date.
4. Aiding other departments in matters related to the Master Plan —such as the preparation of land acquisition plans.
5. Acting as Clerk of the Planning Board.

We should like to point out that our meetings are open to the public and we welcome any citizens at our meetings so that the public may have a better understanding of the functions and duties of our board.

New industry and the expansion of existing facilities can be valuable assets to the Town. The Commission recommends the encouragement of such additions consistent with the Master Plan: adequate municipal services based on reasonable taxes depend on balanced and orderly industrial and residential growth.

During 1962 the Commission concentrated on a thorough review of pertinent facts. In this it had the help of many, including the Selectmen, Assessors, Conservation Commission, Planning Board, Board of Appeals, Town Administrator, as well as the consultant to the Planning Board, representatives of local business and industry, the Massachusetts Taxpayers Association, and officials of many government and regional agencies.

There are now some twenty manufacturers and wholesalers in Walpole, with more than 3000 employees and an annual payroll approaching twenty million dollars. Our unemployment rate is very low, although less than one third of the local jobs are filled by the 4000 working residents of the Town.

Walpole has valuable assets in its very large acreage of vacant buildable land, MDC sewer connection, Brockton-Taunton gas service, and Boston Edison power (with high voltage and substation within town limits). The advantages of being on major highways and rail lines will

become even more apparent when access roads to our industrial sites are improved. Forty per cent of our municipal water is now used by industry; we should not encourage new large water users until additional sources of equally high quality become available.

The financial effects of new industry depend upon many factors that vary widely from town to town. Therefore, we believe that our situation and problems require specific analysis, in addition to drawing on the experience of other communities. In the last six years Walpole's equalized tax rate has *declined* slightly, while the rates of most near-by towns increased.

EQUALIZED TAX RATES

The equalized tax rate is that rate which would apply if properties were assessed at full market value.

Source: Massachusetts Taxpayers Association

	1962	1956	CHANGE
WALPOLE	\$29.30	\$30.36	3.5% Drop
Sharon	35.80	29.35	22.1% Increase
Canton	32.90	27.80	18.4% Increase
Medfield	28.50	29.46	0.3% Drop
Norwood	28.90	25.63	12.3% Increase
Millis	30.00	24.50	22.4% Increase
Westwood	24.50	23.99	2.1% Increase

Utilities, industrial firms, and wholesalers pay about 35% of all Walpole property taxes, although they occupy less than 2% of the land. Expansion of these established companies continues to add substantially to the Town's revenues, directly and through distribution of state taxes.

Careful consideration of the facts leads us to the conclusion that Walpole would benefit by increased industrial activity which:

1. will contribute more in tax revenues than it costs the Town in services
2. does not use excessive amounts of water
3. will create no undue traffic, odors, or other nuisances
4. is within the framework of the Master Plan.

This completes the first phase of the Commission's work. The next objective is to attract such additional industrial activity through all appropriate contacts, including executives of interested firms, government agencies, associations, industrial developers and realtors.

Most of the Commission's reference material is now available at the Walpole Public Library.

In 1948, by town meeting vote, Walpole accepted the provisions of Chapter 200 of the Acts of 1948 as amended. This act provided for housing for veterans with low income. This project known as "Robinwood" has 45 single dwellings financed by bonds with a 40-year life issue and guaranteed as to principal and interest by the Commonwealth of Massachusetts. The original issue was for \$494,000 and during the 14 years the Housing Authority, from rental income, has reduced the bond indebtedness to \$380,000, and in addition, the local housing authority has paid the annual interest as it became due. At no time during this 14 year period has the tax rate of the Town of Walpole included any of the expenses of the "Robinwood" project.

Annually the Walpole Housing Authority submits for approval, its budget to the State Housing Board. The State Housing Board reviews our requests and requires quarterly reports of our progress as compared with their approved budget. In addition, the Auditor of the Commonwealth of Massachusetts annually audits the operations of the local housing authority and submits a complete report of our operations to the Selectmen and all members of the local Housing Authority.

The 1962 budget of \$35,070 for operating expenses was approved by the State. These expenses included maintenance, debt reduction, interest on bonded indebtedness and the salary of the Executive Director. Members of the Walpole Housing Authority are unpaid. Actual 1962 expenses were within \$125 of the budget.

In addition to our operating expense budget, the Walpole Housing Authority requested approval of \$50,000 in capital expenditures but at present the State Housing Board has not approved these requests.

The Authority is responsible for collection of rents and maintains the property in accordance with best real estate practices. Advertised bids are required on all major repair or replacement items. Before any work can be performed by the lowest reliable bidder, the State Housing Board must approve the local authority's selection of the contractor.

When vacancies occur, the local authority selects the new tenant on the basis of inadequacy of their present living arrangements and the need for more suitable living quarters, and with total income less than the maximum limits set forth in Chapter 200 of the Acts of 1948 as amended. Every qualified applicant for a vacancy is interviewed by the local authority before it makes its selection.

The physical and financial operation of the project is under the complete supervision of the State Housing Board with the Walpole Housing Authority acting as their agent.

During the year, the Conservation Commission has started the program enunciated in our first report of last year. Meetings have been held regularly twice monthly throughout the year.

Clark's Pond has been acquired and a preliminary application for reimbursement has been filed with the Commonwealth. This site has been inspected by the area representative from the Department of Natural Resources.

The Commission has been actively interested in the East Walpole Drainage Project since part of our duties involve protection of the town's watersheds. We believe that this year the problem will be satisfactorily resolved.

Preliminary negotiations have been commenced on acquiring parts of the wetlands along the Neponset River in South Walpole. For several months we have been negotiating for the purchase of Cobb's Pond and in the year of 1963, all the details of this purchase will be completed.

Early in the year, the Commission held a public meeting to explain the results of our first year study. This meeting included a number of local speakers whose subjects dealt with their conservation activities over the years.

To provide for broader public participation in conservation and to supplement the various activities of the Conservation Commission, in September, Mr. Thomas Flint of the Concord Land Trust came to Walpole and spoke on the aims and procedures of forming a Land Trust. As a result of this open meeting, a privately-operated Land Trust was formed in Walpole.

In October, the commission invited Mr. Allen Morgan of the Audubon Society to lecture and to show slides on the need for conservation in the Town of Walpole.

During the year, we have on many occasions met with the Board of Selectmen, various Town committees and departments. For their continued co-operation, we express our appreciation.

Civil Defense

LEVI SALONEN, *Director*

The Year 1962 proved to be one of growth for the Civil Defense Department.

The U.S. Government Corps of Engineers shelter survey was accelerated and Phase 2 completed in the last quarter of 1962. Several town-owned buildings proved to have shelter capabilities and other areas were revealed in privately owned buildings. The Federal Licensing Program was initiated locally as all buildings must be licensed before the Government will mark shelter areas or issue shelter supplies. The construction of home fall-out shelters is still being urged by the Federal Administration.

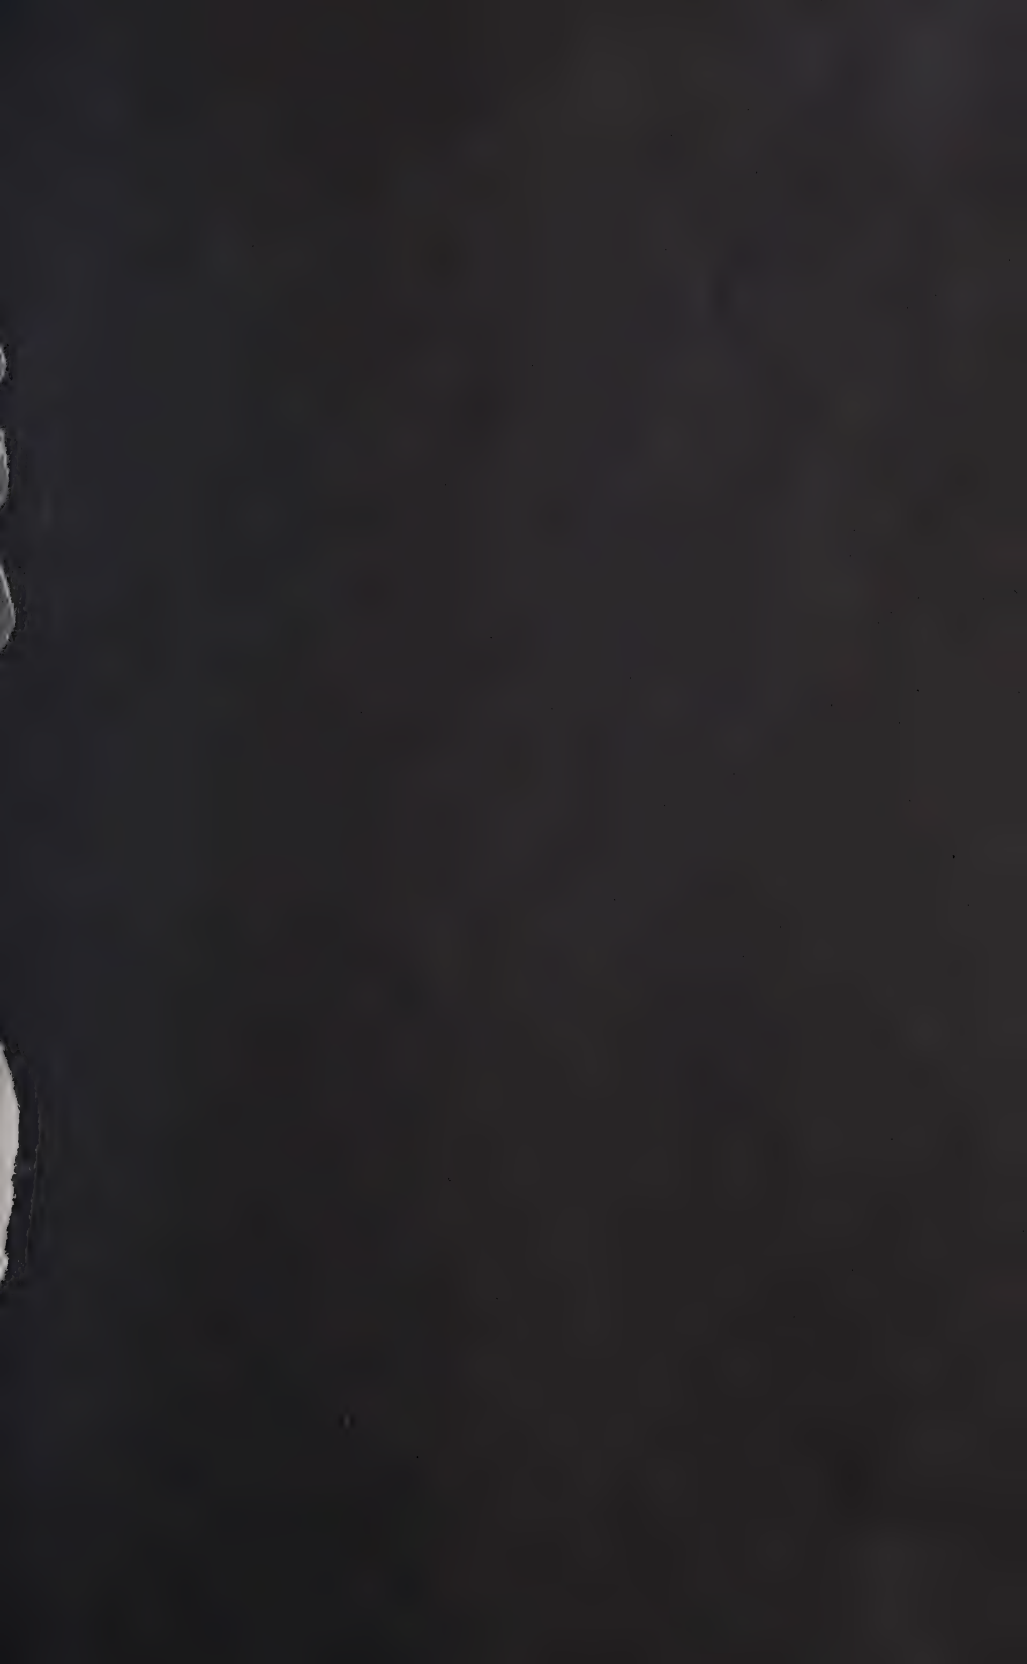

Local Civil Defense sirens were completely checked and tested throughout the year by the Radio Communications Department and are operational on a twenty-four hour basis.

The Auxiliary Police Organization was re-organized to a complement of thirty-six men. Helmets and badges were issued and a new program of fire arms instruction proposed. The Pistol Team once again proved their superior ability in competition.

Radiology equipment was issued by the Federal Government and we now have five instrument-equipped monitoring stations. A thirty-man radiological team functioning under an operations plan was finalized.

Walpole participated in a Pilot Program for Medical Self Help with ninety-five certificates awarded for a ten week's course.

Civil Defense in Walpole continues as a vigilant organization of twelve divisions with nearly four hundred volunteer citizens ready to spring into action should an emergency be declared.

Curriculum Development

Our modern language program has been completely revised, and we can now offer a continuous sequential course in French from Grades 4 through 12, and in Spanish from Grade 7 to Grade 12. Modern techniques are used, training in Language Laboratories scheduled, and teachers who have studied and accepted the new concepts of modern language teaching comprise the staff.

MATHEMATICS

(a) The modern mathematics program at the Senior High School level is available to all preparatory pupils, and we are pleased with the results.

WOODWORKING. Robert Baker and Robert Cherella exhibit a chest which Cherella has made in the Industrial Arts course at High School.

(b) Modern mathematics is being introduced to several Junior High School classes. Textbooks and materials have been purchased, and the staff is working on the course of studies.

(c) At the elementary level, an in-service program for teachers and administrators of Grades 4, 5, and 6 has been planned. Mr. Joseph Hannigan of the High School Mathematics staff, has agreed to take a seminar course at Washington State University designed to aid elementary teachers. On his return, he will give the course to Walpole elementary teachers and administrators. Experimental classes are planned for September, 1963, and we expect to have the program well under way by September, 1964.

SOCIAL STUDIES

The School Committee voted to adopt the Social Studies textbooks recommended by the Social Studies Committee of teachers and principals who had been working on the project for over two years. Adoptions of textbooks from Grades 3 through 8 were made at this time.

ENGLISH

The School Committee, upon recommendation of the Superintendent of Schools, voted to adopt the Laidlaw Series of English for use in the

elementary grades two through six. It is anticipated that in addition to an up-to-date English program, this series will present a strong grammar background for our pupils.

READING

The School Committee has reviewed plans for strengthening our elementary reading program. Mr. Glendon H. McAlister, who has been teaching in Newton, has been appointed Supervisor of Reading for Walpole in Grades 1 through 6.

Report of the Secondary Schools — 1962

At graduation on June 7, 1962, diplomas were presented to 153 graduates by Mrs. Eleanor N. Johnson, Chairman of the Walpole School Committee.

Honor essays at graduation were presented by Edward Young, Mary Jacobs, Bradford Swenson, Thomas Dunn, and Suzanne Tourtellotte.

The following awards were made at graduation:

Martha Metcalf Allen Scholarship: Edward Young.

AT THE COUNTER in the High School Cafeteria.

Walpole Teachers' Association Scholarship: Carol Sadaway.

Walpole Woodworkers' Self-Improvement Awards: Constance Goto-
vich and James Stewart.

Walpole Women's Club Scholarship: Mary Jacobs.

Walpole High School Parent-Teachers' Association Scholarships:

Statistics on the Class of 1962:

Fifty-nine percent were accepted to post-high school education. Seventy-six percent of these graduates were admitted to degree-granting colleges and universities.

The geographical distribution of applications and acceptances to schools of higher education is as follows:

APPLICATIONS:

Massachusetts	124 (66%)
Other New England States	34 (18%)
Outside New England	29 (16%)

ACCEPTANCES:

Massachusetts	78 (70%)
Other New England States	17 (16%)
Outside New England	16 (14%)

Scholarship assistance to graduates of 1962 is as follows:

First Year	\$14,000.00
Four Years	\$56,000.00
Local Scholarships	\$1,550.00
Total	\$57,550.00

Departmental Organization:

To help insure proper articulation between the junior and senior high schools, departments are organized under department heads. Each department head has responsibility for staff members and curricula in grades seven through twelve in his academic area.

Regularly scheduled departmental meetings are held for the purpose of:

1. Reviewing and revising courses of study in relation to the needs of Walpole young people.
2. Reviewing and recommending basic texts and supplementary reading materials.
3. Determining budgetary needs for other instructional equipment and materials.
4. Reviewing the program of studies to recommend change of grade placement for certain subjects, addition or deletion of other subjects, and special programs for the academically talented and/or the slow-learner.

In addition to separate departmental meetings, administrators and department heads meet several times a year to coordinate instructional programs toward objectives common to the total school program.

2. Original placement and continuous evaluation of placement of students in courses, ability groupings and special subject combinations.
3. Organization of fifteen occupational conferences at the high school in cooperation with Northeastern University.
4. Arranging for visits to the high school by representatives of many college and university admissions officers.

The High School Evaluation Program:

Walpole High School is an accredited member of the New England Association of Colleges and Secondary Schools. As a result of a formal evaluation in 1960 the high school was voted continuing accreditation status for ten years contingent upon satisfactory two-year and five-year progress reports.

The following report was received from the Association after evaluation of the two-year progress report in June, 1962:

"The two-year progress report from Walpole High School was considered first by a subcommittee of the Standing Committee in consultation with a representative of the State Department of Education.

"On recommendation of the subcommittee, the Standing Committee has approved the progress report as satisfactory.

"Please accept the congratulations of the Standing Committee for the continuing growth and progress of the school."

Retired Personnel

ELSIE E. DRISCOLL

Miss Driscoll came to the Stone School as a first grade teacher in 1920, and with the exception of two years at the Fisher School, taught continuously at the Stone School until her retirement in June, 1962.

For forty-two years she has been one of the most competent and respected of Walpole's many fine teachers. Our gratitude and best wishes go with her.

M. LORETTA WALSH

Miss Walsh joined the staff at the Bird School in 1918, and retired from the staff in June, 1962.

Miss Walsh was a "superior teacher," whose Building Principal—even in her last year—went in to her room to see "an inspired teacher work." For forty-four years East Walpole children and teachers have enjoyed their association with a great teacher.

Leach Scholarship Awards

On December 20, 1962 the Leach Scholarship Committee announced the third annual awards of tuition scholarships. The interest from this large fund will amount to approximately \$8,013.07 this year.

The Leach Scholarship Committee awards scholarships to those students from Walpole High School who become students at any non-sectarian university, college, or institute. The scholarships are to be as nearly as practical to the cost of the annual tuition, but not less than \$500.

The college students awarded scholarships this year are:

Judith L. Coburn, attending Mt. Holyoke College.

Joyce M. Collins, attending Middlebury College, School of Spanish.

Thomas E. Dunn, III, attending Brown University.

Constance A. Gotovich, attending University of Ohio.

Marjorie A. Light, attending Mt. Holyoke College.

Edward L. Lynch, attending Harvard College.

Audrey E. Maxwell, attending Lake Erie College.

Philip L. Taylor, attending Harvard College.

Frederick J. Thorn, II, attending Worcester Polytechnic Institute.

Langdon Wait: attending William and Mary College, School of Law.

Rosemary Wise: attending University of Massachusetts.

Fales Scholarship Awards

The 1962 awards to graduates of Walpole High School who are attending colleges, universities, or institutes are announced by the Fales Scholarship Committee, as follows:

Dorothy J. Bering, attending Northeastern University.

Peter F. Brady, attending Boston College.

David H. Carlson, attending Tufts University, School of Medicine.

Russell W. Olson, attending Bowdoin College.

Robert S. Pike, attending Northeastern University.

Thomas F. Riley, attending Georgetown University Law School.

Carol A. Sadaway, attending Regis College.

Suzanne W. Tourtellotte, attending Mass. Institute of Technology.

Ann Wisneski, attending Boston College.

The interest available for 1962 amounts to approximately \$4,371.47 and will be distributed in awards of approximately \$485.72 each.

The total amount distributed through the years from interest earned by the \$100,000 Fales Fund now has reached \$115,995.31.

In compliance with Section 61 of Chapter 41 of the General Laws, I submit herewith the annual report of the Accounting Department for the year ending December 31, 1962.

The Accounting Department prescribes and operates a set of general accounts embracing all financial transactions of the town.

All bills, invoices and payrolls against the town are checked to determine regularity and legality before they are paid.

Monthly reports concerning receipts and expenditures of the town are prepared and a detailed annual financial report is prepared for public use.

A quorum being present, Moderator George F. Barr called the meeting to order. On a motion regularly made and seconded, it was voted to waive the reading of the Warrant.

Article 1. To elect all Town Officers not elected by ballot.

Article 2. To hear and act on the report of any Committee or to choose any Committee the Town may think proper and transact any other business that may legally come before the Town.

VOTED: That all recommendations of The Appropriation Committee be accepted as motions.

The Moderator appointed Herbert Readell and Walter Meyers, Surveyors of Lumber and Measurers of Wood and Bark.

The Moderator, George F. Barr, appointed Elmore Ashman, Julius Yankee, Joe Nye Welch and Albert Deckel as tellers.

Mr. Lytle G. Williams was appointed Deputy Moderator for the overflow meeting simultaneously held in the Walpole High School Cafeteria.

On Reports of Committees, Mr. Roger Ives, chairman of the new Boyden School Committee, asked that the report be deferred until Article 26 is being acted upon.

Mr. Richard Lovett, chairman of the School Sites Committee, asked that the report be deferred until Article 29 is being acted upon.

Mr. Arthur C. Jones, chairman of the School Office Building Committee offered the following report:

"REPORT OF SCHOOL OFFICE BUILDING COMMITTEE

THE PROBLEM

By a vote of the townspeople at the 1961 Town Meeting, the School Office Building Committee was appointed by the Moderator "to determine the need, recommend a site, and submit plans for a school office building." No money was appropriated for this committee at that time.

After numerous and lengthy meetings with the Superintendent of Schools, John F. Powers, and the School Committee, the need became most clear for permanent separate quarters for the Superintendent of Schools and his staff. These quarters are required because of the continuing need for additional classroom space which, over the years, has forced the Superintendent of Schools to move more than half a dozen times.

Other facts uncovered in our investigations are:

1. The School Department, a two million dollar per year business, could be run more efficiently because its business functions are not now consolidated.
2. In September, 1962, seventy-nine elementary classrooms are required; seventy-seven are available, and
3. Two classes of children are being transported to elementary schools in Walpole Center because the School Administrators occupy two vitally needed classrooms in the area in which these children live. This adds unnecessarily to the School Department's yearly transportation budget.

SOLUTIONS INVESTIGATED

The following are the areas investigated to solve the problem:

1. Rent adequate space near the center of town.
Adequate space, if available, would cost the Town \$3,000 per year in rent alone; heat, lights, and janitorial are additional. In ten years, for example, having spent \$30,000 for rent, the Town would have nothing tangible for its investment.
2. Add on to an existing school building.
If requesting State aid, the addition would have to be built in accordance with the most stringent specifications and at a cost which would be prohibitive in view of its use as office space. In addition, it would not be feasible to add on to an existing school building, near the center of town, because of heating problems and State requirements for land surrounding a school.
3. Buy and erect a pre-fabricated building.
A building of the size required would cost \$25,000 delivered on site; all subcontracting fees (erecting, plumbing, electricity, etc.) are extra.

4. Buy and renovate an existing older home.
Skyrocketing prices determine that this solution is not a wise one.
5. Build a new building.
This was the only permanent, and least costly, solution; however, since the School Committee was offered the use of the Town Administrator's home as temporary office space, the Town was saved the \$40,000 expense at this time.
6. How will the new parochial school affect the present classroom shortage?
We expect that two classes of Grade 1 (100 pupils) will open in September, 1963, and that two classes will be opened each year thereafter until the school is filled. According to Mr. Powers' projected enrollment figures for the next five years, the Walpole public school population will grow faster than 100 pupils per year. Therefore, the parochial school is not anticipated to ease the public school classroom shortage.
7. What about space in the "new Town Hall"?
Interviews with the Board of Selectmen, the Walpole Planning Board, and the Appropriations Committee, seem to indicate that a new Town Hall will not be constructed in the "foreseeable future."

EXPENSES

The firm of Korslund, LeNormand and Quann, Architects, prepared plans for a building to be located on East Street. These plans are now the property of the Town.

The following bills were presented and paid:

Korslund, LeNormand and Quann	\$300.00
Conrad & Son (copies of floor plans)	2.20
	<hr/>
Appropriated at Special Town Meeting, June 1961	\$302.20
Balance returned to Town	1,500.00
	<hr/>
	1,197.80

CONCLUSIONS

As previously stated, the offer of temporary use of the Town Administrator's home as school offices was most opportune. Although the location is not the most convenient, the School Department is happy to accept the building pending the easement of the classroom shortage and the possible eventual occupancy of the Old Fisher School as a permanent School Office Building.

Of course, when office space was built in the High School for the School Administrator, it was hoped that it would be permanent. Time has proven that these hopes were futile.

When the new Stone School was built, it was hoped that the Old Stone School would not be used for classroom space. This hope, likewise, proved futile.

Now that the School Committee hopes to take over the Old Fisher School in the not-too-distant future as school office space, how long will it be before it too, will again be used for much-needed classroom space and force the Superintendent and his staff once again to search for new quarters?

ACKNOWLEDGEMENTS

This committee is grateful for all assistance and cooperation extended throughout its investigations by—

The Superintendent of Schools and his staff
The Board of Selectmen

The Appropriations Committee
The Walpole School Committee
The Walpole Planning Board, and
The Permanent Building Advisory Committee.

In addition, our appreciation goes to the Town Administrator, Mr. Robert Boyd and his staff, who extended considerable assistance, and Mr. Thomas White, Representative to the General Court, who worked so diligently in the preparation of two bills for presentation before the Legislature.

VOTED: That the report of the School Office Building Committee be accepted.

VOTED: That the School Office Building Committee be discharged with thanks.

Mr. Herbert W. Lewis, reporting for the Committee to Recommend a Name for the New Junior High School, offered the following motion; which was

VOTED: That the report of the Committee to Recommend a Name for the New Junior High School be accepted, and the school be named WALPOLE JUNIOR HIGH SCHOOL, and the Committee be discharged with thanks.

"Report of Committee to recommend a name for the New Junior High School as submitted to the Town Meeting, January 26, 1962.

1. Committee appointed in May 1961: Mrs. Ruth Sayers, Chairman; P. Bernard Spillane, Herbert W. Lewis.
2. The school at that time was called East Junior High School to avoid confusion for delivery men, mechanics or others who might need directions to it.
3. Committee talked with many residents and most favored Walpole Junior High School, although one letter and verbal suggestion mentioned the name of two deceased and three living Walpole residents.
4. Questionnaires were printed in the Walpole Times after school started in the fall of 1961 to assist the committee in getting the opinion of all residents. Twenty-one answers to questionnaires favored Walpole Junior High School, one young boy who answered favored East Junior High School, and one lady approved of Walpole Junior High School but noted that other schools were named after persons or families. It seems fitting, therefore, that our committee should recommend Walpole Junior High School because of the response to our personal questions and to the questionnaires to the public; and because it is in reality the only Junior High School in Walpole and serves the entire town."

EAST JUNIOR HIGH BUILDING COMMITTEE

Mr. William E. Petrie offered the following Report of Progress:

"Mr. Moderator, the East Junior High Building Committee wishes to make the following report for the record of the 1962 Town Meeting.

Ladies and Gentlemen, on September 9, 1961 the East Junior High School was occupied by 520 students and faculty members. For all interests and purposes this completed our work as a building committee. However, due to various items of work that had to be completed we have continued to meet for various reasons.

The only major work remaining to be completed is the layout of playing fields on the East Street side of the building. Since we feel that careful study of the use of this area is warranted and since we further feel that any athletic fields built should be integrated into the overall requirements of the town, we are not asking to be discharged at this time.

We know that you are all vitally interested in keeping our tax rate in line this year; therefore it is our pleasure and duty to release \$100,000 to the town in accordance with any and all regulations, either local or state, governing the release of such funds.

In releasing these funds we think it should be pointed out that we have retained sufficient funds in our account to complete the playing fields and any additional equipping of the school as is deemed necessary."

On motion of Raymond J. Hagerty, chairman of the Appropriation Committee, it was

VOTED: That the Planning Board make a survey of the accepted streets that do not presently have sidewalks and they recommend to the Selectmen and Appropriation Committee a complete constructive program in detail to complete sidewalk construction on these ways.

It was unanimously **VOTED** that the Town adopt the following resolution:

WHEREAS: He has served the Town of Walpole faithfully for 10 years, and

WHEREAS: He has performed the duties of Moderator with integrity and dignity throughout that period,

BE IT RESOLVED that the Town of Walpole express its sincere appreciation to William O. Forssell for his fine public service, and it is directed that this resolution be entered upon the permanent record of the Town.

On motion of Eleanor N. Johnson, chairman of the School Committee, it was

VOTED: That the Moderator appoint a committee of five members to procure plans and specifications for the erection and equipping of an elementary school on Town-owned land on Old Post road in East Walpole, said committee to report not later than the next annual Town Meeting.

On motion of Eleanor N. Johnson, chairman of the School Committee, it was

VOTED: That the Moderator appoint a committee of five members to study future school needs for the Town of Walpole.

Article 3. To see if the Town will authorize the Town Treasurer with the approval of the Selectmen, to borrow money from time to time, in anticipation of the revenue of the financial year, beginning January 1, 1962 and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, Chapter 44 of the General Laws (Ter. Ed.)

VOTED: That the Town authorize the Treasurer with the approval of the Selectmen to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1962, and to issue notes therefore payable in one year and to renew any note or notes as may be given for a period of less than one year in accordance with the provisions of Section 17, Chapter 44, of the General Laws, Ter. Ed., any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1962.

Article 4. To see if the Town will petition the Director of Accounts, Department of Corporations and Taxation, Commonwealth of Massachusetts, for an audit

of the Town's Accounts, in accordance with Section 35, Chapter 44, of the General Laws. (Ter. Ed.)

VOTED: That the Town authorize the Collector in collecting taxes to use all means which the Treasurer may use when appointed Collector.

Article 6. To see if the Town will authorize the Collector in collecting water rates and service bills to follow the rules and regulations of the Water Department.

VOTED: That the Town authorize the Collector in collecting water rates and service bills to follow the rules and regulations of the Water Department.

Article 7. To see if the Town will authorize the Collector in collecting sewer assessments to follow the rules and regulations of the Sewer Department.

VOTED: That the Town authorize the Collector in collecting sewer assessments to follow the rules and regulations of the Sewer Department.

Article 8. To see if the Town will authorize the Selectmen to sell any and all property now owned by the Town, or to be acquired, as a result of foreclosing rights of redemption in said property, or do or act anything in relation thereto.

VOTED: That the Town authorize the Selectmen to sell any and all property owned by the Town or to be acquired, as result of foreclosing rights of redemption in said property.

Article 9. To see if the Town will instruct the Selectmen to provide compensation under the Workmen's Compensation Act, for its laborers, workmen and mechanics, including all employees of the Town, regardless of the nature of their duties, receiving injuries out of and in the course of their employment or in case of death resulting from such injury, raise and appropriate money therefor, or do or act anything in relation thereto.

VOTED: That the Town instruct the Selectmen to provide Workmen's Compensation under the Workmen's Compensation Act for its laborers, workmen and mechanics, including all employees of the Town regardless of the nature of their duties receiving injuries out of and in the course of their employment or in case of death resulting from such injuries and that the Town raise and appropriate the sum of Twelve Thousand Dollars (\$12,000.00) therefor.

Article 10. To see what compensation the Town will allow its Selectmen, Assessors of Taxes, Town Treasurer, and Collector of Taxes, for their services for the ensuing year, raise and appropriate money therefor, or do or act anything in relation thereto.

Article 11. To see if the Town will raise and appropriate or transfer such sums of money as may be necessary to defray the regular departmental expenses of the Town for the ensuing year, or do or act anything in relation thereto.

It was moved and seconded that the Town raise and appropriate the sum of one thousand dollars (\$1,000.00) for the Industrial Commission.

On a substitute motion offered by Mr. R. J. Hagerty—

It was **VOTED:** That the Town raise and appropriate the sum of \$8052.96, new total, for the Industrial Commission.

SPECIAL TOWN MEETING

MARCH 27, 1962

The Warrant was issued by the Selectmen under date of March 15, 1962. All statutes and by-laws having been complied with concerning the calling of a Special Town meeting, and a quorum being present, the meeting was called to order by the Moderator, George F. Barr.

It was VOTED to waive the reading of the Warrant.

Article 1. Moderator Barr appointed the following tellers: William Boothby, Elmore Ashman, Julius Yankee, Joe Welch and as Deputy Moderator, Lytle G. Williams for the overflow.

On motion of Raymond J. Hagerty, chairman of the Appropriation Committee, it was:

VOTED: That all recommendations of the Appropriation Committee be accepted as motions.

Article 2. To see if the Town will raise and appropriate or transfer a sum of money to install a water main in Benny and Highland Streets from Washington Street to the present main in Highland Street, or do or act anything in relation thereto.

VOTED: That the Town transfer from the Water Available Surplus Account the sum of Four Thousand Dollars (\$4,000.00) for the installation of a water main in Benny and Highland Streets from the present main in Washington Street to the present main in Highland Street.

Article 3. To see if the Town will raise and appropriate or transfer a sum of money to install a water main in Victory Road, 400 feet from the main in Short Street, or do or act anything in relation thereto.

VOTED: That the Town transfer from the Water Available Surplus Account the sum of Two Thousand Four Hundred Dollars (\$2,400.00) for the installation of a water main in Victory Road 400 feet from the main in Short Street.

Article 4. To see if the Town will vote to reconstruct the following streets: North Street or any portion thereof, and Fisher Street or any portion thereof, and raise and appropriate or transfer a sum of money therefore, said money may be used in conjunction with any money which may be allotted by the State or County or both, or do or act anything in relation thereto.

VOTED: That the Town raise and appropriate by transfer from the Excess and Deficiency Account the sum of Thirty-Four Thousand Dollars to meet the Town's share and the State and County's share of the work, the reimbursement from the State and County to be restored to the Excess and Deficiency Account upon receipt for reconstruction of North Street or any portion thereof and Fisher Street or any portion thereof.

Article 5. To see if the Town will vote to raise and appropriate or transfer a sum of money to purchase and equip an ambulance, with permission to trade a Buick ambulance, or do or act anything in relation thereto.

VOTED: That no action be taken under this article.

Article 6. To see if the Town will vote to raise and appropriate or transfer a sum of money to install a hydrant on the Bird School grounds, and connect same to the Washington Street main, or do or act anything in relation thereto.

VOTED: That the Town raise and appropriate by transfer from the Excess and Deficiency Account the sum of Two Thousand and Three Hundred Dollars (\$2,300.00) for the installation of a hydrant at the Bird School.

Article 7. To see if the Town will vote to raise and appropriate or transfer a sum of money to help defray the cost of the Pee Wee Hockey League, or do or act anything in relation thereto. (Petition of Dominic Baldassari and others).

On a motion made by the Appropriation committee,

It was moved and seconded: That no action be taken on this article.

On a substitute motion offered by James P. Cisternelli,

It was moved and seconded: To see if the Town will vote to raise and appropriate the sum of One Thousand Two Hundred Dollars (\$1,200.00) to help defray the cost of the Pee Wee Hockey League, or do or act anything in relation thereto.

The substitute motion was defeated.

Article 8. To see if the Town will vote to transfer the funds in the "Purchase Clark's Pond" account, so called, to the Conservation Commission, or do or act anything in relation thereto.

On a motion made by the Appropriation Committee, it was

VOTED: That the Town authorize the transfer from the "Purchase Clark's Pond" account, so called, the sum of Five Thousand Dollars (\$5,000.00) to the Conservation Commission.

Article 12. To see if the Town will vote to amend the By-Laws of the Town of Walpole by adding thereto the following By-Law providing for a Gas Inspector: The Board of Health shall appoint an inspector of gas piping and gas appliances in buildings whose duty shall be the enforcement of the Rules and Regulations adopted by the Board established under Section 12 H of Chapter 25 of the General Laws.

Gilbert W. Anderson moved the following which was

VOTED: That the Town amend the By-Laws of the Town of Walpole by adding thereto the following By-Law providing for a Gas Inspector: The Board of Health shall appoint an Inspector of gas piping and gas appliances in buildings whose duty shall be the enforcement of the Rules and Regulations adopted by the Board established under Section 12 H of Chapter 25 of the General Laws.

Voted unanimously.

10:30 P.M. having arrived, it was voted to extend the Town Meeting. Then Selectmen's motion to substitute as written on Page 32 (of the Appropriation Committee report) deleting nine lines and adding: Bookkeeper-Clerk as Schedule B, Grade 3 and Schedule B, Grade 10 for Town Accountant and Town Administrator, Schedule B, Grade 15, Step 7 was put to a vote — Yes, 131; No, 103.

A motion to reconsider Article 11 prevailed. The following substitute motion:
Bookkeeper-Clerk as Schedule B, Grade 3
Town Accountant as Schedule B, Grade 10
Town Administrator as Schedule B, Grade 15, Step 7,
was voted on a voice vote — unanimous.

When the vote was questioned, it was ruled out of order because the Moderator could not find seven dissenters.

The original motion was then carried unanimously — on a voice vote.

No further business to come before the meeting, it was voted that the meeting be dissolved. The Moderator so declared at 10:55 P.M.

ADJOURNED ANNUAL TOWN MEETING

April 2, 1962

A quorum being present, Moderator George F. Barr called the meeting to order.

On a motion regularly made and seconded, it was voted to waive the reading of the Warrant.

The Moderator appointed Julius Yankee, George Lyons, Ahti Lans and Bernard Duffy as Tellers.

Lytle G. Williams was appointed Deputy Moderator for the overflow meeting simultaneously held in the Walpole High School Cafeteria.

On a motion made by Raymond J. Hagerty, Chairman of the Appropriation Committee, it was

VOTED: That all recommendations of The Appropriation Committee be accepted as motions.

Gilbert W. Anderson, chairman of the Board of Selectmen, presented the following report for the Board of Selectmen:
Mister Moderator:

Last Tuesday evening at the Special Town Meeting by a strong expression of sentiment directed from the floor and by an implied promise made by a member of the Appropriations Committee from the stage, the Board of Selectmen with the advice of the Town Counsel are expected to report to this Adjourned Annual Town Meeting that they have found a way within the framework of the Personnel Board schedules to pay immediately to the Town Administrator an increase in his salary from \$8810.00 to a sum of \$10,800.00.

Unfortunately, after a lengthy meeting Wednesday evening between members of the Selectmen, the Appropriations Committee, the Town Administrator, the Town Counsel, and the entire Personnel Board, we must report that we are unable to find a means whereby you can tonight vote to increase the salary of and pay it to the Town Administrator. However, a longer range solution is possible.

Let us review briefly the events of last Tuesday for the benefit of any who were unable to be present. By a motion to amend the report of the Personnel Board, the Town Administrator's salary was increased from a requested amount of \$7970.00 to the sum of \$8810.00. This is the maximum amount that the Town Administrator, or for that matter, the maximum amount that any employee subject to Town Meeting approval can earn under the pay schedules of the Personnel Board. This increase to \$8810.00 was authorized by the acceptance of the Personnel Board's report.

At the same time, the Town Meeting adopted in the Personnel Board report an amendment to its by-laws which makes it impossible to reclassify and pay any additional increase at this time. In part, the amendment reads, "All reclassifications of schedules including grade, pay ranges and pay rates shall be effective January 1 of the year following the Personnel Board's reclassification."

Your Board of Selectmen moved to strike this amendment from the Personnel Board's report. The Town Counsel advised the Special Town Meeting that unless this was stricken, it would effectively block the ability of the Town to grant any increase at this time. However, in spite of this advice, the amendment was carried.

Our solution now lies in holding a Special Town Meeting where we can again consider the actions taken in the meeting last Tuesday. There is no article in the Annual Town Meeting Warrant under which any such action can be taken.

The Personnel Board intends this year to restudy all the wage and salary schedules of the Town. This will give full consideration to all employees of the Town and enable the committee to recommend any desirable changes in addition to that of the Town Administrator. Since such restudy is a lengthy procedure when properly done, the Selectmen by agreement with the Personnel Board will call a Special Town Meeting to be held early in the Fall of this year. In the meantime, all committees will have ample time to make calm and considered recommendations for your decision."

(A)—Hear and act upon a report of the "Addition to Boyden School Committee."

(B)—Construct and equip a nine room addition to the Boyden School substantially in accordance with plans and sketches of Korslund, LeNormand & Quann.

(C)—Raise and appropriate the sum of Five Hundred Thousand Dollars (\$500,000.00) in the following manner: One Hundred Thousand Dollars (\$100,000.00) by transfer from the Excess and Deficiency Account; One Hundred Thousand Dollars (\$100,000.00) by transfer from the "Construct East Junior High School Account"; One Hundred Fifty Thousand Dollars (\$150,000.00) in the 1962 Tax levy and that the Treasurer, with the approval of the Board of Selectmen is hereby authorized to borrow the sum of One Hundred Fifty Thousand Dollars (\$150,000.00) and to issue and sell at one time, or from time to time, bonds or notes of the Town thereof, to be redeemed by the Town in a period of not longer than Ten (10) years in accordance with the provisions of Section 7 of Chapter 44 of the General Laws of the Commonwealth.

(D)—Authorize and direct the Board of Selectmen, said Boyden School Addition Committee and/or the Treasurer to take all necessary action and to execute on behalf of the Town all necessary documents to obtain the maximum financial grant or assistance from the United States of America or the Commonwealth of Massachusetts, or both, for said original construction of said addition to the Boyden School.

Raymond J. Hagerty, chairman of the Appropriation Committee offered the following amendment:

That the period of redemption for the bonds be five (5) years instead of ten (10).

The amendment was adopted.

On a substitute motion made by Walter C. Rockwood, Jr., chairman of the Planning Board, it was moved and seconded:

That (C) the Town raise and appropriate the sum of Five Hundred Thousand Dollars (\$500,000.00) in the following manner: One Hundred Thousand Dollars (\$100,000.00) by transfer from the Excess and Deficiency Account; One Hundred Thousand Dollars (\$100,000.00) by transfer from the "Construct East Junior High School Account"; Fifty Thousand Dollars (\$50,000.00) in the 1962 Tax levy and that the Treasurer, with the approval of the Board of Selectmen is hereby authorized to borrow the sum of Two Hundred Fifty Thousand Dollars (\$250,000.00) and to issue and sell at one time, or from time to time, bonds or notes of the Town thereof, to be redeemed by the Town in a period of not longer than Five (5) years in accordance with the provisions of Section 7 of Chapter 44 of the General Laws of the Commonwealth.

The Substitute Motion was defeated. Vote: Yes, 310; No, 163.

The Moderator then called for a vote on the original motion as amended. The Vote—Yes, 480; No, 3. Standing Vote.

Roger A. Ives, chairman of the Boyden School Addition Committee, presented the following report of progress:

"REPORT OF THE BOYDEN SCHOOL ADDITION COMMITTEE

As a result of the vote of the townspeople in 1961, this Committee was appointed by the Moderator. Its purpose was to determine the need for additional classrooms in the Boyden School area, and if such a need existed, to propose plans and recommendations for construction of them.

We assumed as our first responsibility the necessity for establishing the need—both present and future—for classrooms in South Walpole. In reviewing the requirements we first considered the original Master Plan of 1956 which clearly predicted a need if there was any growth in South Walpole. This plan further supports the Boyden School area as a practical one for an elementary school site, primarily because of its ability to service a population center not easily handled in other districts. The forecasts of the master plan were compared with actual figures, and the validity of this plan established. The same growth pattern was extended to indicate future needs. Total enrollment in the town has shown a marked growth pattern since 1954, and is expected to continue at the same rate (approximately 7% per year at least through 1968.) In support of this total growth, the South Walpole area was considered separately and its growth compared with total town expansion. There are presently 218 pupils in this district being served by three classrooms. At the present time it is necessary to transport 110 of these students to other locations. In projecting the needs for students and rooms, the following growth pattern emerges:

1961 - 1962	218 Pupils	9 Rooms
1962 - 1963	247 Pupils	10 Rooms
1963 - 1964	275 Pupils	11 Rooms
1964 - 1965	293 Pupils	12 Rooms
1965 - 1966	297 Pupils	12 Rooms
1966 - 1967	295 Pupils	12 Rooms
1967 - 1968	295 Pupils	12 Rooms

It is significant to note that these figures are based on an actual census of children presently living in the South Walpole district. As a matter of record, it is also established that the birth rate alone in Walpole indicates a continuation of this growth. This rate was 213 in 1950 and has climbed to a rate of 375 in 1961.

Predicated on this review and study, it was felt by the Committee that additional classrooms for South Walpole were not only needed, but needed immediately.

The Committee at this point decided on a course of action which would provide these rooms at the earliest possible time. This addition can, and must be ready for occupancy in September 1963.

Preliminary educational specifications were drawn up for an additional nine (9) classrooms with provisions for adding six (6) more classrooms in the future if it becomes necessary. Support or "core" rooms, such as cafeteria, auditorium, library, health rooms, physical education area and administration office were designed to not only support a 12-room school but could absorb a future 6-room addition without requiring expensive modification or split sessions. These proposals were then thoroughly discussed with the School Building Assistance Commission to insure compliance with their regulations and allow the town maximum State Aid. At this point it became necessary to enlarge certain areas for this purpose. The Commission advised us on cost-saving measures which could be taken, and these also were incorporated into the design plan.

After many school visitations and interviews, our Committee selected the firm of Korsland, LeNormand and Quann as Architects in preparing the plans and designs that could best meet the town's needs. This firm was chosen for the following reasons:

1. Record of predicted cost and economy is excellent.
2. Their proven ability to produce a building of good quality and low maintenance cost.
3. Because their experience is primarily schools. (Two-thirds of all their work.)
4. They are the largest Architectural office for school work in the state.
5. Their offices are close enough to the job site to insure maximum attention to detail.

Final sketches and plans were then submitted to the State for preliminary acceptance and approval. These plans have been accepted and State Aid will accrue to the town at the rate of 32.71% of the expenditures for the new addition. Any work in the existing building will not be given aid—and as a result, we propose a minimum of it. The addition is designed to reduce maintenance cost to a minimum while still supplying modern, efficient classroom facilities.

Cost estimates for this addition were prepared by Mr. Korsland. Upon receipt of the original cost estimates the Committee reduced them from about \$600,000.00 to \$550,000.00. These costs are:

Building Cost—26,250 sq. ft. at \$16.00 per sq. ft.	\$412,000.00
Site and Sewage Disposal	50,000.00
Furnishings and Equipment	30,000.00
Work in Old Building*	2,000.00
Architectural Fees	35,000.00
Contingencies	21,000.00
Total	\$550,000.00
Less State Aid	179,250.00
Total Walpole Cost	\$370,850.00

*—This cost will not receive State Aid.

The Committee for the Addition to the Boyden School sincerely recommends that this building be constructed. It is necessary that it be approved and constructed as soon as possible in order that the population growth of the town does not outrun the town's ability to observe it. It is necessary also to be aware of the need to provide economical and efficient school facilities in keeping with the standards which Walpole requires.

The following is a report of the financial transactions of this Committee to date:

Appropriated to the Committee		\$5,000.00
Expended:		
Topographic site survey	\$1,233.00	
Literature preparation	909.00	
Mailing Expense	27.60	
		<hr/> 2,169.60
Balance		<hr/> \$2,830.40

Article 2

William F. McDonald asked the Moderator to return to Article 2. He offered the following motion:

That the Town Moderator appoint a committee to study the need of having a set of parliamentary rules by which to govern the town meetings and to report at the next regular town meeting.

The motion was defeated on a voice vote.

Article 28. To see if the Town will vote to raise and appropriate, raise and appropriate by transfer, raise and appropriate by borrowing, a sum of money for the procurement of plans and specifications for the erection and equipping of an elementary school on Town-owned land on the Old Post Road in East Walpole. (Petition of School Committee.)

It was moved, and seconded: that the Town raise and appropriate the sum of One Thousand Dollars (\$1,000.00) for the procurement of plans and specifications for the erection and equipping of an elementary school on the Old Post Road in East Walpole.

Raymond J. Hagerty of the Appropriation Committee moved the following amendment which was adopted:

That the Town raise and appropriate the sum of \$2000.00 for the procurement of plans and specifications for the erection and equipping of an elementary school on the Old Post Road, East Walpole.

The Moderator then called for action on the original motion as amended, which was adopted on a voice vote.

Article 29. To see if the Town will vote to raise and appropriate, raise and appropriate by transfer, raise and appropriate by borrowing a sum of money for the purchase of school sites, or do or act anything in relation thereto. (Petition of Committee on School Sites.)

VOTED: That the Town raise and appropriate by transfer from the Excess and Deficiency Account the sum of Thirty-Four Thousand Dollars (\$34,000.00) for the purchase or option of land for school building purposes. The vote was unanimous.

Mr. Richard Lovett, Chairman of the Walpole School Sites Committee, presented the following report of progress:

"REPORT OF THE WALPOLE SCHOOL SITES COMMITTEE

The Walpole School Sites Committee has been engaged during the past year in expanding existing school sites and arranging for future school sites which will meet the long range school needs of the Town.

With regard to the South Walpole area, the Town appropriated money last year to purchase a 4.4 acre site from Mr. Civilinski adjacent to the Boyden School property. The relocation of Mr. Civilinski's driveway was not properly provided for, and the Boyden School Building Addition Committee and their architect feel very strongly that a one-half acre lot and house owned by Mrs. Robertson be purchased by the Town. The purchase of Mrs. Robertson's property on Washington Street between the Boyden School and the Terrace Hill Cemetery would do several things which are advantageous to the Town.

1. It would provide more suitable drainage area for the school addition which will lower the cost of the sewage disposal system.
2. It will allow for a proper relocation of Mr. Civilinski's driveway by enabling the Town, the Terrace Hill Cemetery and Mr. Civilinski to change the northern boundary of the Boyden School property to a straight line rather than an "S" shaped line. This will permit a straight driveway to be constructed by the Town which is probably less expensive, and which is satisfactory to Mr. Civilinski. The Terrace Hill Cemetery Association has agreed to this exchange of land between the Town and the Cemetery which would provide a 40-foot wide strip of land for Mr. Civilinski. An exchange of land between Mr. Civilinski and the Town is satisfactory to Mr. Civilinski.
3. The purchase of the Robertson property would improve the setting of the proposed addition to the Boyden School as the location of the Robertson property is directly between Washington Street and the proposed addition.

The cost of the Robertson house and land, the necessary survey work on the Robertson property as well as the relocation of the boundary, the three title searches is estimated to be \$12,000.

In West Walpole, the School Sites Committee recommends the purchase of 13.7 acres of land which lie between West Street and Lincoln Road and adjacent to Kingsbury Street for a future elementary school. This land is presently owned by Mrs. Green. The cost of this land is \$18,000. A \$1,000 allowance to cover test borings, survey and title search costs before purchase is needed. There are several conditions which are contingent on the sale of this property to the Town.

1. The present owner would have the right to continue to control and farm the land without taxes until such time as school construction would interfere.
2. The present owner would reserve the right to repurchase the land if at some time it is determined that the Town does not intend to build a school there. The repurchase price would be \$18,000 plus accumulated taxes back to the time of sale to the Town.

The purchase of this site was the recommendation of the Educational Service Associates which was part of the Master Plan.

The Master Plan also predicts the eventual need of a West Junior High School in the area between Spring, Allen and West Streets, and an elementary school in the Pemberton Street-Robbins Road area. The School Sites Committee recommends that the Town consider reserving an area consisting of 55 acres of Town owned land west of Robbins Road and North of Elm Street for this purpose. This area is located close to the site suggested by the Master Plan for a so-called Pemberton-Robbins Elementary Site. This area would also be large enough to locate a Junior High School without placing the schools too close together. Close access to a sewer trunk line is advantageous cost-wise as well as the fact that a town well is presently located on this property and should be protected. The Committee feels that the change in the location of the West Junior High is not significant enough geographically as to warrant the purchase of land in the Spring, Allen and West Street area which is somewhat difficult to walk to because of the limited accesses due to the Neponset River and railroad tracks.

It has been recommended by the Appropriations Committee and the School Committee that a small amount of additional land be purchased for the Boyden School, and the School Committee has recommended small enlargements to two other school sites. The balance of the \$34,000 asked for or \$3,000 would be used toward this end.

If the Town approves all of these recommendations and expenditures, it would appear that sufficient school sites had been secured for the full growth of the Town, with the exception of future possible small additions to school properties. The estimated total cost of future school sites as per the Master Plan was \$175,500 in 1956. While the School Sites Committee has not secured as much acreage as was recommended, the Committee feels the acreage purchased and under consideration is sufficient, at a total cost to the Town of under \$80,000 of which \$39,800 has already been appropriated.

Our Committee wishes to express its sincere appreciation to the Home Building Company, Mr. Bird, Mr. Heritage, Mr. Civilinski, and the Trustees of the Terrace Hill Cemetery, Mrs. Robertson and Mrs. Green for their cooperation and concern with regard to the present and the future school requirements of the Town of Walpole.

The Committee hopes to secure the small additions to the school sites during the next year and present its final report at the next Annual Town Meeting.

Respectfully submitted,

(Petition of Maple Grove Cemetery Association.)

It was moved and seconded: That the Town vote to receive from the Maple Grove Cemetery Association a conveyance and transfer of all real and personal property and all funds or other property held by said Association in trust for perpetual care of the lots in its cemetery and for other purposes; to be held and managed by said Town for cemetery purposes as authorized by law, such conveyances and transfer to be made when duly authorized by the General Court and by a decree of a court of competent judgment, and in accordance therewith.

Frank W. Smith moved a substitute motion: That Article 32 be tabled for further study.

The substitute motion was defeated. Vote: Yes, 13; No, 282.

The original motion was then adopted on a voice vote.

Article 33. To see if the Town will vote to receive from the Rural Cemetery Association, a conveyance and transfer of all real and personal property and all funds or other property held by said Association in trust for perpetual care of the lots in its cemetery and for other purposes; to be held and managed by said Town for cemetery purposes as authorized by law, such conveyance and transfer to be made when duly authorized by the General Court and by a decree of a court of competent jurisdiction, and in accordance therewith, or do or act anything in relation thereto. (Petition of C. Eugene Hartshorn.)

VOTED: That the Town vote to receive from the Rural Cemetery Association a conveyance and transfer of all real and personal property and all funds or other property held by said Association in trust for perpetual care of the lots in its cemetery and for other purposes; to be held and managed by said Town for cemetery purposes as authorized by law, such conveyances and transfer to be made when duly authorized by the General Court and by a decree of a court of competent judgment, and in accordance therewith.

Edward J. Hawkins, chairman of the Cemetery Committee, presented the following report:

"REPORT OF CEMETERY COMMITTEE

This committee was appointed by the Moderator as voted at the 1961 Annual Town Meeting for the purpose of investigating the advisability of the Town taking over the ownership and assuming the responsibility for the operation and upkeep of

the Maple Grove Cemetery and Rural Cemetery, both located in the Town of Walpole for over a century.

As a result of periodic meetings to explore other alternatives, methods of operations by surrounding towns, and the best possible method for the Town operations of these cemeteries, we have inserted two articles in the Warrant, one for each cemetery, requesting the Town to assume ownership, operation, and upkeep. The present two cemetery corporations would turn over to the Town all their records, layout plans, equipment and all funds now held, either as Operating or Permanent Care Funds. If so voted, the Town action would then have to be approved by the Massachusetts General Court and Corporation charters revoked. This is a routine procedure, but means the actual legal transfer would take about a year.

We propose that three Cemetery Commissioners be appointed by the Selectmen to serve on a rotating basis (Section 16 of the General Laws.) These commissioners, reporting to the Selectmen, would supervise procedures for burials, records, regulations for undertakers, and use of the property; review and control rate charges for lots and services and keep the Selectmen and Town officials concerned fully informed on any proposed changes for improvements or operating policy. Deeds for lots purchased and all payments would be made through the proper Town offices and Perpetual Care funds controlled by the Town Trust Fund Commissioners.

Present financial resources for the two cemeteries total about \$28,000 with income from invested funds about \$1,200. Costs for Town operations are difficult to estimate with the variables of expansion, sale of new lots, etc., involved but we believe a total of \$2,400 would be reasonable, probably on the high side. Some of the upkeep could probably best be done by private contractor and some by present Town equipment as most economically decided by the commissioners.

The Maple Grove Cemetery comprises 5.62 acres. Estimated available space—100 8-grave lots (16' x 20') graded but not finished; space for 200 additional lots undeveloped.

Rural Cemetery is 4.75 acres. Available and graded room for 440 graves.

ORDER FOR JUDGMENT

This petition for a Writ of Mandamus came on to be heard by me on the merits, by the presentation of oral evidence, several exhibits and argument of counsel. After hearing and upon consideration thereof, it is ordered that the following judgment be entered:

That a Writ of Mandamus issue commanding the respondent, as town clerk of the town of Walpole, to enter upon the record of the adjourned session of the annual town meeting of the town of Walpole, held on April 10, 1961, a certification that upon reconsideration by the town, Article 41 of the Warrant failed of passage and was defeated; and to enter on the margin of the record of the adjourned session of the annual town meeting held on March 27, 1961 and April 10, 1961, a reference to the order of this Court.

It is further ordered that with respect to the prayers for binding declarations sought by the intervenors, Abraham White and Thurston Hartwell, Executors under the will of Alonzo J. Shadman, pursuant to General Laws, Ch. 231A, S 6, the following decree be entered:

That Article 41 of the warrant was legally reconsidered at the adjourned session of the annual town meeting held on April 10, 1961 and as a result of the vote of the town meeting, said Article 41 failed of passage as an amendment to the Zoning By-Law of the town of Walpole.

It is further ordered that no costs be awarded.

“THE COMMONWEALTH OF MASSACHUSETTS

OFFICE OF THE SECRETARY

STATE HOUSE, BOSTON

November 21, 1962

The following is the statement appearing on the petition for recount filed with this office in the interest of John A. Volpe, candidate for Governor:

“TO THE SECRETARY OF THE COMMONWEALTH:

STATE HOUSE, BOSTON

Boston, Massachusetts

“We, the undersigned registered voters of Norfolk County, represent that we have reason to believe and do believe that the returns of the Election Officers and the records of copies made by the Election Officers of the Commonwealth of the votes cast at the ELECTION on Tuesday, November 6, 1962, for JOHN A. VOLPE of Winchester and ENDICOTT PEABODY of Cambridge, and all other candidates for Governor of the Commonwealth are erroneous, in that JOHN A. VOLPE of Winchester, Republican Candidate for said office, was credited with fewer votes than he was entitled to, and ENDICOTT PEABODY of Cambridge, Democratic Candidate for said office was credited with more votes than he was entitled to, and in particular without restricting the generality of the foregoing, that votes were counted for ENDICOTT PEABODY which should have been counted for JOHN A. VOLPE, that votes were counted as blanks which should have been counted for JOHN A. VOLPE, that votes were counted for ENDICOTT PEABODY which should have been counted as blanks and that there are errors in the records and the returns of the count and that votes were cast and recorded for ENDICOTT PEABODY which may be the subject of lawful challenge, and we believe a recount of the ballots cast in the several voting precincts of the Commonwealth will affect the election for said office. We therefore ask that all votes cast for all candidates for Governor of the Commonwealth be recounted as provided for in the General Laws.”

Results of the Recount Held on December 4, 1962 in Blackburn Memorial Hall, Walpole, Mass.:
